The Conference is a part of the **Erasmus + Jean Monnet project “ Introduction to EU: Education for Secondary Schools – INEES”**, financially supported by the European Union and co-financed by the Provincial Secretariat for Finance of the Autonomous Province of Vojvodina.

The Conference aims to develop a dialogue between participants, representatives of upper-secondary education, academia, government, civil society and other stakeholders and highlights the importance of informing young people about the European Union and implementing EU-related topics in secondary school curricula.

The topics of the panel and conference participants will point out the most important aspects of the accession process and consider further steps to involve young people in the changes that follow the path of European integration, as well as the importance of studying topics about the European Union at all levels. Opening the discussion, as one of the components of the Conference, will contribute to bringing European values closer to young people and other stakeholders in terms of continuing their education, training, improving social life and employment in the European education area.

#### **The panel topics are:**

The conclusions of the Conference will be presented in an electronic publication that will be available on the EUTutor web platform in Serbian and English.

**The Conference will be held on Wednesday, May 18, 2022. starting at 12PM at the Novi Sad School of Business** and online via the Zoom platform. The final agenda with the access link will be sent to all participants before the Conference.
